WIRELESS

Next™ Wireless Detectors

Elegant and Reliable Wireless Detectors for the Home

Industry-leading digital detection technologies

Unsurpassed catch performance and false alarm immunity

Unique pet-immune detection technology

Fully supervised secure wireless transmission

Designed for Visonic PowerMax™ and PowerCode™ wireless systems

Visonic®

For a smart and secure lifestyle

Next MCW – Elegant and Reliable Wireless Digital Detectors

Maximum Detection, Minimum False Alarms

The Next™ family of wireless digital detectors is the ultimate choice for any home application, delivering the industry's highest detection accuracy while virtually eliminating false alarms.

Secure Wireless Transmission

Implementing Visonic's renowned PowerCode™ wireless technology, Next wireless detectors feature a secure 24-bit ID code, which is selected from 16 million possible combinations and is virtually impossible to accidentally reproduce. A unique anti-collision transmission sequence ensures accurate reception of simultaneous signals from multiple transmitters.

Effective and Reliable Pet-Immune Solutions

By reliably distinguishing between human bodies and animals weighing up to 38 kg (85lb), Next pet-immune detectors virtually eliminate false alarms caused by cats, dogs, rodents, etc.

Ultimate Ease-of-Use

All Next wireless detectors offer easy installation, configuration and operation, combined with an attractive sleek design suitable for any decor.

## Compliance with International Standards

Next wireless detectors and PowerCode™ devices are available in various frequency bands according to international standards, and are approved for use by local authorities in most countries.

Part of PowerMax™ Smart Home Management Solutions

Next wireless detectors are designed for seamless integration with any Visonic PowerMax™ or PowerCode™ wireless system. Implemented in less than an hour, PowerMax™ wireless systems are easily controlled via the intuitive graphic user interface and voice prompts, which are available in more than 22 languages.

Part of PowerMax™ Smart Home Management System

Next wireless detectors are seamlessly integrated with Visonic's PowerMax™ smart home security, control and management system, providing the following key benefits:

Easy Access and *Control*

PowerMax™ users can control their entire home environment – security, air-conditioning, appliances, lighting – through a single easy-to-use keypad or remotely from any touch-tone or cellular phone.

Comprehensive *Security* Solution

PowerMax™ protects as many as 30 zones, with virtually any combination of Visonic PowerCode™ detectors: PIR, pet-immune, glass-break, flood, gas and smoke detectors, door/window magnetic contacts, etc.

Instant *Emergency* Assistance and Remote Communication

PowerMax™ automatically issues reports to monitoring stations, pre-programmed private telephones and/or pagers. Two-way voice communication can be remotely initiated, facilitating instant emergency assistance.

Safety and Peace of Mind

Designed for the peace of mind of residents and property owners, PowerMax™ systems provide early detection of intrusion, smoke, gas and flooding.

Next™ Wireless Detectors

Next PIR MCW
General-Purpose Motion Detector

Advanced wireless PIR implementing a whole new generation of patented digital and optical technologies to achieve long-term reliability, outstanding catch performance and the industry's lowest rate of false alarms. Sleek elegant design and easy installation make Next PIR MCW ideal for any home.
Next K9-85 MCW
Pet-Immune Detector

Unique pet-immune wireless digital PIR enabling homeowners to secure their homes while allowing pets to move freely. Next K9-85 reliably distinguishes between human bodies and animals weighing up to 38 kg (85lb) using patented 3D "Target Specific Imaging". Full supervision, compatibility with PowerMax™ and all Visonic PowerCode™ wireless panels and receivers, and sleek elegant design ensure smooth implementation in any home .

Visonic Wireless Products

The PowerMax™ smart home and office management system can be further enhanced by incorporating additional PowerCode™ wireless devices which can be seamlessly integrated into the system. These devices are designed to provide added benefits such as safety monitoring, personal emergency signaling, and increased convenience

About Visonic

With over 30 years of experience in every aspect of security, Visonic has built a strong reputation as a world leader in the security industry. Recognized for its innovative technologies and reliable high performance systems, Visonic is positioned at the forefront of the Home Automation market with the launch of its new wireless security and home & office automation PowerMax™ system. Visonic has laid the groundwork for the "networked home" where electronics, systems and appliances are all linked by an internal network with connection to the Internet. Visonic's wired and wireless security systems and individual products cover a wide range of applications for access control, personal protection, health care, fine art protection and home automation. This broad offering meets the diverse needs of most of our customer profiles. Headquartered in Tel Aviv, Israel, Visonic has an installed base of millions of installations that receive worldwide technical and marketing support through a network of subsidiaries, distributors and sales representatives in over 70 countries.
