New Levels of Security, Control and Simplicity

Visonic's MKP-160 and KP-160 PG2 keypads are the ideal solution for controlling basic alarm functions from different locations in the home or small business premises. Featuring a stylish design and graphic touch screen, each of these keyprox stations is a two-way, icon-based, keypad with prox reader.

MKP-160 and KP-160 PG2 provides most of the day-to-day end-user functionalities as the main control panel. The touch screen is used to perform all common actions such as arming/disarming the system, initiating emergency, fire and panic alarms, controlling X-10 devices and PGM outputs and reviewing the system's status. The proximity reader and tags enable users to avoid the burden and pitfalls of memorizing secret codes and allows installers to maximize system security by installing the control panel in a hidden location.

Features & Benefits

- MKP-160 works with PowerMax systems; KP-160 PG2 works with PowerMaster systems

- Two-way wireless communication with the panel – Provides feedback from the system that the commands have been successfully executed

- Supports systems with partitions – Controls up to three areas

- Battery operated with AC power option to enable an always-on screen

- Wall-mounted or desktop

- Tamper switch protects battery compartment and prevents unit removal

- Provides audible and visual entry/exit warnings

- Highly visible, icon-based, large LCD touch screen

- Additional safeguard – If a tag is lost, it can be deleted from the panel

- Can be used in hidden panel architecture

Compatibility

Chicklet Proximity Tags
High-quality, decorative proximity tags eliminate the need to memorize secret codes.

Quick Reference Guide

1. Present prox tag

2. Volume indication

3. System status (NOT READY/BYPASS)

4. Volume level, Zone #, PGM / X-10 display

5. PGM / X-10 indication

6. Partition status indication

7. Partition selection

8. DISARM

9. ARM HOME / QUICK ARM HOME

10. ARM AWAY / QUICK ARM AWAY

11. LATCHKEY

12. Mute exit beeps

13. Volume control

14. Show next status of open / bypass zones

15. PGM/X-10

16. INSTANT

17. FIRE

18. EMERGENCY

19. PANIC: Press both keys sImultaneously for 2 seconds

20. AUX / Enroll / Back to factory / Cancel current operation

21. Control panel messages

22. Installer Mode

23. Memory / Alarm

24. Trouble indications

25. AC failure

26. Communication failure

27. Low battery

28. Status when partition is disabled

29. LED (green and red): action feedback for transmissions, enrolling, status indications

Product specifications:

Communication protocol: PowerG/PowerCode

Frequency band (MHz):   USA: 912-919

Europe and rest of world:
433-434, 868-869

Battery type: Four 1.5V AA Alkaline
batteries

Battery life
(with typical use):   PowerG: 4-5 years
PowerCode: 4 years

Power source (optional):   5-12V DC

Color: Black/white/silver

Operating temperatures: $0°C$ to $55°C$
($32°F$ to $131°F$)

Dimensions: 150 x 100 x 20mm
(5.87 x 3.87 x 0.8in)

Weight (including battery
and bracket):   379g (13oz)

Mounting: Wall-mounted or desktop

Compliance: European: EN301489,
EN60950, EN50131-1,
EN50131-3
